YOU OUGHT TO KNOW

the truth about heating stoves before you invest in one. You have probably
heard of the genuine **ROUND OAK** made in Dowagiac, Michigan. It has
made its mark as the best heating stove known; it has a record for success
never equaled by any
stove of any kind. It
must have been good and
it certainly satisfied its
million users or it would
not be the most popular
and have the largest sale
of any heating stove in
this country. We wish
you to know these facts
and also that it has al-
ways been kept up to the
high standard set by it in
the start and that its cost
is no more than an imita-
tion. We take pleasure
in explaining why it sur-
passes all others. And
the fuel does not matter
—any kind most conven-
ient for you to secure.
We invite you to see it.
Remember there is only
one "ROUND OAK"
the genuine is sold by us.
